2025 Holiday Hours at Progenic

At Progenic, we aim to help make your holiday season run as smoothly as possible. To support your scheduling needs, we've included a holiday planning calendar (see reverse). By allowing the proper number of working days, we can maintain the quality of each restoration and prevent the need for rescheduled appointments. Please use this calendar when coordinating your patients' treatment plans so we can meet both your needs and theirs throughout the holiday season.

The lab will be closed from:

December 24th @ 1pm

to

January 5th @ 9am

**There will be no service or production during our closure .
Regular hours resume on January 5th**

All of our production times remain the same throughout the holiday season and are affected only by the days that we are closed. **Please note that these are standard working times and they include one day for shipping.**

For some cases, more time may be required. Should you have any cases with special concerns, or that require faster service, please call the lab to confirm the desired date. We will accommodate requests where possible. A rush fee may be applied for expedited cases.
